**MMPJ COVID HOSPITAL PANDEMIC RELIEF કોવિડ સારવાર સહયોગ**

MMPJ Hospital (Leva Patel Samaj Hospital) has finally received approval from the Indian Government to treat Covid patients. Treatments are already taking place at our permanent hospital location however an emergency Corona Virus Centre with full treatment capacity has been set up consisting of 120 beds which includes ventilators, BiPAPs and oxygen facilities for the critically ill patients at a secondary location in Bhuj.

Additional to this, we have also opened a third site at our Mandvi Samaj which is being used as an isolation centre to house the less critical patients and those who cannot isolate in their own homes.

Using our network, we have created a Frontline Warrior Workforce, which includes Critical Care Doctors, Physicians, Medical Officers, Nurses, Wardboys/girls etc. Fighting the pandemic requires a collective effort and that is what we are doing with the help of our Chovisy members.

As you are aware, oxygen supply is the biggest problem. Although our MMPJ Hospital already has an oxygen plant, the need for oxygen has increased and the current plant's output has become insufficient. Furthermore, portable oxygen bottles are having to be sourced daily from external suppliers to serve the two new centres. To solve this issue, we have authorised the installation of a multi-purpose larger plant capable of providing enough oxygen for the hospital pipelines as well as giving us the capability to refill portable bottles for use at our other centres.

**Next Steps**

With being at the start of this second wave, we are bracing ourselves for the peak and looking to see how we can get ahead of this storm. Already the new centres are at near full occupation and therefore we have decided to expand all current facilities further by providing more capacity and equipment to combat this wave and any future peaks. Our local community members are providing full support to our efforts and many international community members have shown great concern and willingness to help.

To date the above has been financed using our Samaj's emergency funds, but to implement this second expansion we will require additional financial assistance from you, our community. With your support, Samaj will continue to serve humanity, irrelevant of caste or creed, through these challenging times. Please note, this fund will be restrictive to Covid related relief only.

Bhuj Samaj would like to thank all our community members for your continued support. Jay Shree Swaminarayan.

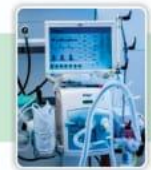

Oxygen Plant -1  
Rs. 3.0 Cr MMPJ Hospital

Oxygen Concentrators  
1 to 100  
Rs. 50,000 Each

Ventilators - 1 to 15
